

The Purpose of the County-hosted Community Open Houses is:

- To gather information about what might change in your community if voters approve creation of a new City of Fairwood, or pursue annexation to the City of Renton, or remain unincorporated.
- To provide feedback to the proponents of a new City of Fairwood, proponents of annexation, the City of Renton, and the County about your concerns about the issues related to annexation and incorporation.
- To discuss these issues with your neighbors.
- To distribute information to the community so residents can make their own choices about a change in governance.

Attending tonight and available for your questions are representatives from the proponents of a new City of Fairwood, proponents of annexation to Renton, the City of Renton, King County, and a consulting firm that has conducted the financial feasibility study related to the proposed new City of Fairwood.

Known Citizen Groups with an Interest in Incorporation and Annexation

Supports Incorporation	Supports Annexation
